## Western Lithium to Hold Conference Call Today to Discuss Positive Scoping Study Results

**Reno, Nevada, USA: Western Lithium Corporation (TSX-V: WLC; PK: WLCDF)** will host a conference call today for investors and analysts at 4:30 p.m. Eastern Time (1:30 p.m. Pacific Time) to discuss the results of a National Instrument 43-101 (NI 43-101) compliant Preliminary Assessment and Economic Evaluation (PAEE) on its Kings Valley Lithium Project in Nevada, USA. Details of the PAEE were announced in a Western Lithium news release issued earlier today.

Date: Tuesday, January 12, 2010  
Time: 4:30 p.m. Eastern Time (1:30 p.m. Pacific Time)  
Webcast: [www.westernlithium.com](http://www.westernlithium.com)  
Dial in: 1-416-340-8018 or toll-free 1-866-223-7781  
Replay: 1-416-695-5800 or toll-free 1-800-408-3053  
Replay Passcode: 3211655

A simultaneous webcast of the conference call will be provided through [www.westernlithium.com](http://www.westernlithium.com).

The conference call replay will be available until midnight (Eastern Time) on January 26, 2010. An archived audio webcast of the call also will be available on Western Lithium's website.

*Western Lithium is developing the Kings Valley, Nevada lithium deposit into potentially one of the world's largest<sup>(1)</sup> strategic, scalable and reliable sources of high quality lithium carbonate. The Company is positioning itself as a major U.S.-based supplier to support the rising global demand for lithium carbonate that is expected from the increased use of mobile electronics and hybrid/electric vehicles.*

(1) Western Lithium has completed a National Instrument 43-101 resource estimate for the envisioned initial stage of development. The current resources are part of the historical estimate of 11 million tonnes of lithium carbonate equivalent (LCE) prepared by Chevron Resources and ranks in size behind deposits in Chile (32 million tonnes LCE), Bolivia (29 million tonnes LCE), North Carolina (14 million tonnes LCE) and the DRC (12 million tonnes LCE). Source: Roskill Information Services Ltd., R. Keith Evans, National Research Council and Western Lithium estimates. A qualified person has not done sufficient work to classify the historical estimate as current mineral resources under National Instrument 43-101, the Company is not treating the historical estimate as current mineral resources and the historical estimate should not be relied upon.
